

Let's Blend®

What is Let's Blend?

Let's Blend finely diced mushrooms are pre-chopped and blanched to save production time. Let's Blend combines well with ground beef, chicken, lamb, pork and turkey. Use Let's Blend mushrooms to enhance, replace or substitute for meat in burgers, chili, meatloaf, sloppy joes, meatballs, pasta sauce, tacos, burritos, enchiladas, casseroles, soups and more!

Let's Blend reduces processing steps and lowers calories, fat, and sodium in your recipe, while adding beneficial nutrients. We can streamline your production by tailoring flavor profiles, diced size, and flexible minimum quantities.

Along with Foodservice Distributors and Retailers, Monterey Mushrooms is proud to provide industrial quantities of Let's Blend finely diced mushrooms to meat processors, manufacturers and institutions that look for the highest quality ingredients.
